

Tree Tops after school Themed clubs

Monday	Tuesday	Wednesday	Thursday	Friday
Arts and crafts club	Football – Football fun factory	Silly science and board games club	Construction club	Adventure club
Come and join us for some arts and crafts. Let your imagine run wide!	Tuesday's couldn't get any better when you have the Football fun factory joining us for after school. Lots of fun football activities ran by Zach Cutting.	Who likes to experiment but your parents/guardians aren't to keen on the mess. Come along to silly science where we make explosions, make slime and use the power of science to explore. Alongside silly Science we also run a board game club.	Do you like to build? If so come along to Tree tops where you use the construction materials to build with. Will you be the next famous architect!	We are very lucky at St Georges to have some lovely outside areas, during adventure club we like to explore these. With the colder and wetter months coming along please don't forget your wellies or you coats.

It could be easier to book onto out clubs follow the link below or scan the QR code
